Dear Editor,

I failed to mention in the plain text where I respond to your comments that I also attached a supplement pdf file that includes the revised version of the manuscript, the new figure arrangements, a clearer version of the responses to your comments and those from the Reviewer #1, and the new Supplementary Material.

Please find this supplement pdf file attached to this additional response item.

Best regards,

C1

Debany Fonseca P. Batista

Please also note the supplement to this comment:
