

Dear S. Wajih A. Naqvi,

On behalf of the authors, I would like to thank you and Dr Blanchet for again taking the time to review this submission. We are pleased with the suggested technical correction suggestions and have updated Figure 3 to fit with Dr Blanchet's suggestion. We have also shortened the abstract as much as we feel is possible and removed many of the brackets that were included in the original.

Sincerely,

Darci Rush
