Interactive comment on "An interrupting mechanism to prevent the formation of coastal hypoxiaby winds" *by* Juan Yao et al.

Juan Yao et al.

yaoj8@mail2.sysu.edu.cn

Received and published: 3 September 2020

We are very grateful for the time and energy editor and reviewer spent in reading our manuscript. We have read the comments carefully, addressed them and made corrections and revisions (see supplement files).

Please also note the supplement to this comment:
