"We have also undertaken an analysis of monthly data (as opposed to climatological averages) for the time period 11-2000–12-2019 (230 months)" is meant to read "We have also undertaken an analysis of monthly data (as opposed to climatological averages) for the time period 11-2000–12-2019 (230 months)" instead.

Apologies for the confusion.
