Response to edits and comments from editor

Thank you for the detailed reading.

We have applied all edits, except L262: kept 'originating' as it is really what is meant.

Regarding comments

L39 Done

L86 Done

L114 Information was already in the text

L149 Done

L156. Reworded: latitude from 35.4° to 35.9° N with an extension of 0.2° north and south of the track.

L202 Removed.

L233 These are single profiles for salinity and density and an average over 3 profiles for Chl-a and particles. Now added in the legend.

L291: Both SAV and ST8 are located in the central NIG. Now explained in the text.

Figure 3. Done

Figure 4. Unchanged, as station names would mask vectors
