

Response to the editor:

We have made the minor changes suggested by reviewer 2. Specifically, units have been updated to use the correct notation through all figure captions. Fig. 1 was also reformatted to make points more visible. We additionally note that Fig. 1 was slightly adjusted to reflect the studies that were added or dropped from the analysis when major changes were made to the manuscript in the previous round of edits. No other changes were made to the text of the manuscript, according to reviewer recommendations. The old and new Fig. 1 can be viewed below, for clarity on the exact minor changes made to the figure:

Old Fig. 1:

New Fig. 1:

Sampling Season

- Winter
- Spring
- Summer
- Fall
- Multiple Seasons
