Dear Dr. van der Meer,

Thank you for the positive re-review and final acceptance of our manuscript bg-2021-45 "Stable isotope ratios in seawater nitrate reflect the influence of Pacific water along the Northwest Atlantic margin".

We are particularly grateful for the deadline extensions, and for the constructive criticisms throughout the peer-review process.

We have altered the sentence on line 29 per your suggestion in your decision letter. The rest of the ms remains the same as in our resubmission on Jun 16. We have chosen Figure 7 as the key figure.

I look forward to seeing our paper published in Biogeosciences.

Sincerely,
Owen Sherwood
