

Response to the editor, the reviewer 1 and the reviewer 2

Your revised manuscript was re-evaluated by the previous external reviewers and myself. Both reviewers are happy with your responses and revisions. I agree with the reviewers that you have addressed their concerns and further improved the quality of the manuscript. I am therefore pleased to inform you that your manuscript is accepted for publication pending some minor technical corrections:

- 1) Maintain the consistency intense used in the abstract section: A mixture of the past tense and present tense are used to describe the results.
- 2) Define the “GoL” when it first time appears in the abstract session
- 3) Consider to add a multiplication sign (X) before the number and “ 10^4 t”

All changes have been added to the final version of the manuscript. We thank you very much for your constructive and relevant comments and suggestions.

Sincerely,

Gaël Many
